Fix today

Fix later

Not a problem

STATION · TEST 1

Everything goes right

R1: the engineer is confirmed free, released and held.

1 · DO THIS

Run R1 for Northgate: the cloud network engineer.

2 · WHAT SHOULD HAPPEN, AS AGREED YESTERDAY

The manager confirms a dated free date; the release is answered; the role is held for a named person.

3 · LOOK FOR

Did each decision go to the right person? Is every step on the record?

Log every finding, including what worked as agreed. A test that finds nothing is not good enough.

STATION · TEST 2

Nobody answers

A manager misses the deadline. Does it go to the backup?

1 · DO THIS

Leave one decision unanswered past its response time.

2 · WHAT SHOULD HAPPEN, AS AGREED YESTERDAY

It goes to the backup, and the delay is on the record.

3 · LOOK FOR

Who was told? How long did it wait? Did anything happen without a person?

Log every finding, including what worked as agreed. A test that finds nothing is not good enough.

STATION · TEST 3

Two deals, one person

R3: another deal wants the project manager.

1 · DO THIS

Place a second hold on the project manager for another deal in December.

2 · WHAT SHOULD HAPPEN, AS AGREED YESTERDAY

The clash is spotted when the second hold is placed, and goes to the resourcing lead.

3 · LOOK FOR

Was the clash spotted? Who decided, and is the reason recorded?

Log every finding, including what worked as agreed. A test that finds nothing is not good enough.

STATION · TEST 4

Release refused

R2: the only other firewall expert cannot be released.

1 · DO THIS

Ask to release the only other firewall expert. The manager says no.

2 · WHAT SHOULD HAPPEN, AS AGREED YESTERDAY

The refusal and its reason are recorded. The role stays a shortfall until a named person declares a gap.

3 · LOOK FOR

Was it called a gap too early? Is the evidence attached?

Log every finding, including what worked as agreed. A test that finds nothing is not good enough.

STATION · TEST 5

A rule broken

Try to sign before the plan is approved. Is it refused, with the rule shown?

1 · DO THIS

Try to sign Northgate before the plan is approved.

2 · WHAT SHOULD HAPPEN, AS AGREED YESTERDAY

It is refused, and the rule is shown.

3 · LOOK FOR

Was it refused? Could you tell which rule, and why?

Log every finding, including what worked as agreed. A test that finds nothing is not good enough.
